The syllabus for the coming season is listed below – we hope you'll enjoy the lectures we've arranged for you. We've now purchased an amplifier system to assist those of you who need it. All meetings (except April) will be held in the Hopkirk Building, Glasgow Botanic Garden, Queen Margaret Drive, Glasgow. Access is via the BBC Gate on Queen Margaret Drive **opened only from 7.00 -7.30 pm**

An important reminder – the Botanics Garden manager has asked us once again to park off the main drive as near to the Hopkirk Building as possible and, especially when the Botanics are open to the public (April & May meetings), to drive very slowly with car hazard lights on.
