## ORDERING

Orders are taken on a **strictly first come first served basis**. The time of receipt of order is noted with each order. Numbers on many lines are limited.

**Once we have received your order, we will check availability and confirm your order by email, with an invoice with payment links.**

# EDULIS NURSERY GALANTHUS LIST 2021

**Please do not send payment till we confirm your order.**

We reserve the right to withdraw a bulb if the quality is not acceptable. The majority of our stock our potted in August and then then are bare-rooted before dispatch. We cannot inspect the bulb until this point.

The bulbs are sent out in damp moss, and need to be potted as soon as possible on receipt. Dispatch is usually January-March. Unless for instance, the order was for only *G. reginae-olgae*. In that case they would be sent earlier. Orders for EU will be dispatched before December 31

It is our aim is to provide top quality bulbs. Consistently good reviews hopefully confirm this.

Orders can also be collected from plant fairs that we attend. The bulbs will still be bare-rooted, and packed in damp moss just before the event unless specifically requested.

Any questions please email me at [edulisnursery@gmail.com](mailto:edulisnursery@gmail.com).

Happy growing!

Paul & Tete

Payment can be accepted by:
