## SHOW RULES

1. Exhibitors must be members of the Club, unless otherwise stated.
2. The term 'rock plant' shall mean any plant suitable for the rock garden, bog garden, wild garden or alpine house.
3. Section I is open to all members. Section II is open only to members who have won not more than 25 First Prizes or the Rutland Salver at previous SRGC shows. Section III is for Junior members. Section IV is for non-competitive exhibits of plants, photographs, paintings, sketches, etc. Council is anxious to encourage these to make the shows as successful as possible. Please advise the Show Secretary of the size of the exhibit by the entry date.
4. All plants for competition should be clearly labelled and the names should be horizontally displayed. Inaccurate naming shall not be a disqualification.
5. Competitive exhibits must be the property of the exhibitor and must have been in his or her possession for at least six months before the date of the Show.
6. No competitor may have more than one exhibit in any one class.
7. No exhibit shall be removed from the hall between the hours of judging and the close of the Show without the permission of the Show Secretary.
8. All exhibits must be removed at the end of the Show.
9. The scoring for all awards based on an aggregate of points will be as follows:

	First	Second	Third
6 Pan Classes	180pts	120pts	60pts
3 Pan Classes	90pts	60pts	30pts
2 Pan Classes	60pts	40pts	20pts

10. The Show Secretary shall appoint Judges for the Show, and their decisions shall be taken as final. For Sections I and II at least two of the three Judges shall be selected from those names on the Club's Panel of Judges which is held by the Chairman of the Show Secretaries' Committee. At least one of these three Judges shall reside outside the immediate neighbourhood of the town where the Show is being held. For Sections other than I and II, Show Secretaries are at liberty to use their discretion. No Show Secretary shall appoint a Judge who has already served at the Show for the previous two consecutive years.
11. Any protest must be delivered in writing within half an hour of the Show opening on the first day of the Show to the Show Secretary, who will then appoint a Committee of not less than three persons who will consider the protest.

13. All exhibitors, except those officially retained, shall leave the hall at the commencement of judging.
14. All plants entered in classes for plants 'grown from seed' or 'new, rare or difficult' must be accompanied by a brief description of their cultural requirements and date of sowing where appropriate.
15. Classes for bulbous plants include corms and tubers. Judges should exclude rhizomes and Orchidaceae, but may give liberal interpretation to plants coming under the other headings. They should look for established plants.

Several paintings by Lawrence Greenwood will be exhibited and auctioned at the Early bulb Display. They form part of the collection of the late Carol Scott who was a long time member of the club. Like many members, Carol was an enthusiastic collector of Lawrence's work. Her family realises that paintings by Lawrence will be most appreciated by members who knew him and want to offer them to club members. This will be a rare opportunity for lovers of Lawrence Greenwood's work to add to their collections. Part of the money realised will be donated to SRGC funds. We hope that a few paintings by Keith Brockey, whose work was held in high regard by Lawrence, will be auctioned at the same time. The paintings can be viewed on the morning of the show and will be sold either before or after the afternoon lectures. If possible photographs of the paintings will be posted on the SRG web site:- [srgc.org.uk](http://srgc.org.uk)

**Members are invited to contribute to the day by bringing as many pans of dwarf bulbs and early flowering alpine plants as possible. Every contribution increases the value of the display for others. Please bring as many pans of bulbs and alpines as possible.** Plants will be grouped into 'classes' on the morning between 9 am and 10 am. The usual rule of one pan per class per exhibitor will be waived. No prize money or points will be awarded. Space will be available for cut flowers of plants which members do not want to disturb in the garden. **Please bring your own vases for cut flowers.** Members may also stage small exhibits of several pans to show variation in species etc. Contributions are invited to the 50:50 plant sale, which will be held to cover expenses.

**Members are asked to help with the teas and plant stall** as this day is organised by the Bulb Group rather than a local group, and the Bulb Group's activities benefit all members.

- 111. 1 20cm (8") vase of Tulips, one variety, three blooms

**Definitions of Classes of Auricula, Polyanthus and Primrose**

**Show Auriculas** are either edge or self-coloured. They invariably have white paste centres.

**Alpine Auriculas** have pips of one colour, though of varying shades of that colour, the deeper shade towards the centre, the paler towards the edge. No farina is to be found on any part of an Alpine Auricula. The centres may be either gold or cream-coloured.

**Border or Garden Auriculas**, are somewhat similar to Alpine Auriculas, but the colour shading is much less definite. They are coarser plants than Alpine varieties, and farina may be found on foliage or flower scapes.

Florists' Auriculas should not be confused with Primulas belonging to the Auricula Section. This latter includes P.auricula and its varieties, and such well-known hybrids as P. 'Linda Pope'; the term " Auricula" is commonly applied to the florists varieties, and not to species and their hybrids.

The plant known as P. 'Barrowby Gem' is a Polyanthus, and the group covered by the name Juliae hybrids should be classed as Primroses; P. Garryarde Guinevere' is a Polyanthus.

Members who are in doubt as to which classes their exhibits belong should consult the Show Secretary.

**SECTION VI**  
**This section is closed this year for competition**
