

Romulea sp From the Tizi n'Tichka pass over the High Atlas. This is a purple beauty with yellow anthers and a yellow throat. 3 for £3.50

Southern Hemisphere *Romulea* We grow a few of South African *Romulea* under exactly the same conditions as our Mediterranean bulbs and they thrive and flower in late winter. The secret is to give them good light so that they do not become too drawn.

Romulea namaquense Rose or salmon pink flowers. 3 for £2.50

Romulea obscura* subsp *subtestacea Beautiful salmon coloured flowers. 3 for £2.50

Romulea tetragona Flowers rosy lilac with a dark band. 3 for £2.50

Scilla armena Large deep blue bell-shaped flowers. £3.00

Scilla bucharica A blue flowered form of the easy to grow *S puschkinioides*. Pamir Range, Tajikistan. £3.00

Scilla caucasica Seed raised stock from Lagodechi. Large deep blue flowers. £3.00

***Scilla cilicica* ex BATMAN 012** Pretty blue flowers on upright stems. £3.00

Scilla ingridiae* var *taurica From Adana province, Turkey. This is a super little plant with hanging blue bells. £3.00

Scilla libanotica Seedlings from Lebanese stock. Large pale blue outward-facing flowers with conspicuous dark blue anthers. £3.00

***Scilla litardieri* (pratensis)** Big froths of starry blue flowers on 15cm stems in late spring. Great for the rock garden or a pot. 3 for £2.50

Scilla messanaica Spike of multiple blue stars which makes a fabulous display on our rock garden in May. 3 for £3.50

Scilla aff monanthos A tiny little *Scilla* with mid-blue flowers. It was very kindly given to us by Martyn Rix and has proven easy in a pot with plenty of water in Spring and has never failed to produce myriads of its mid blue flowers on 8cm stems. 3 for £3.50

Scilla monophyllos As the name suggests, the single leaf is characteristic of this blue umbellate species from S Spain. £2.00

Scilla puschkinioides An easy snow-melt species but from Central Asia. White flowers with a greenish tinge. 3 for £2.50

Scilla rambourii A Spanish and slightly larger version of our native *S verna*. £2.50

Scilla verna The beauty of the western European sea cliff tops which can be stained blue with this diminutive little squill. 3 for £3.50

***Tritelia bridgesii* ex JJA1925119** Jim wrote "SE of Chico. 150m. G. Greger coll. (A spectacular N Californian species with wide umbels of big, translucent, purple-blue flowers on stems up to 50cm. high". £2.00

***Tritelia grandiflora* ex NNS 04463** Edges of vernal wet patches with bunch grasses. Tight, gritty volcanic soil. Blue mountains Oregon. £2.00

***Tritelia laxa* 'Dexter'** Raised by us from SRGC seed (as something else entirely!) this is a superb dwarf form of this excellent garden plant. Flowering in late June it is a delight for the rock garden or a pot. 5 for £4.00

***Tritelia laxa* 'Double Dexter'** We were surprised to find that we had grown a double form of the above from its seed which were very kindly returned to us by a valued customer. It retains the dwarf character being only 20cm tall at most. £5.00

***Tritelia peduncularis* ex NNS02326** White to blue flowers with very long pedicels. From vernal moist, serpentine gravel flats in the inner coastal ranges of California. £2.00

Tecophilea cyanocrocus The legendary Chilean blue crocus. £5.00

Tecophilea cyanocrocus* var *leichtlinii Paler blue flowers with a white centre. Equally beautiful. £5.00

Tecophilea cyanocrocus* var *violacea The fabulous intense violet form which flowers so well for us. £5.00

Tristagma bivalve A lovely little white-flowered South American species. £2.50

Tulbaghia comminsii A dainty little white flowered species with pinkish mid vein over wispy foliage. It flowers all summer if kept moist. 3 for £3.50

SEED LIST

Freshly gathered seed this year from some of our choicest bulbs. We do not keep seed from year to year. Any source stated reflects that of the parents or sometimes more than one generation removed. I will be as generous as I can with the number of seeds per packet so that you can grow a good potful. All are £3.00 per packet unless otherwise marked.

Allium akaka

Allium acuminatum

Allium acuminatum* var *album

Allium barscewskyi

Allium caesium Seed from Jim Archibald's best blue selection originating in Zeravshan Range, Uzbekistan

Allium egeroviae

Allium insubricum A must for every rock garden

Allium libani

Allium platycaule

Allium pseudobodianum

Allium scabriscarpum

Allium siskiyouense

Allium ubipratense

Bellevalia forniculata

***Biarum dispar* ex SL294.** 5 seeds per packet

Calochortus albus

Calochortus catalinae

Calochortus palmeri

Calochortus striatus

Colchicum balansae Large pale pink chalices erupt from the deep-seated bulbs. Definitely one for a long tom.

Colchicum cupanii* subsp *cupanii

Colchicum macrophyllum

Colchicum variegatum

Crocus goulimyi* subsp *goulimyi

Crocus goulimyi* subsp *goulimyi* var *albus

Cyclamen coum* var *albissimum

Cyclamen alpinum

Cyclamen alpinum* forma *leucanthum

Cyclamen crassifolium* var *virgineum

Cyclamen cilicium

Cyclamen graecum subsp candidum
Cyclamen graecum subsp graecum well marked leaf
Cyclamen graecum subsp graecum ex Glyfada
Cyclamen graecum subsp graecum ex Rhodopou
Cyclamen maritimum ex Monte Smith, Rhodes
Cyclamen maritimum ex SW Turkey
Cyclamen mirabile
Cyclamen pseudibericum
Cyclamen rohlfsianum pale pink flowers
Cyclamen rohlfsianum deep pink flowers
Fritillaria acmopetala subsp acmopetala
Fritillaria acmopetala subsp acmopetala from a selected dark flowered form.
Fritillaria acmopetala subsp wendelboi
Fritillaria amana
Fritillaria ariana.....£4.00
Fritillaria aurea
Fritillaria baisunensis The new name for the Pulkhakim in S Uzbekistan) *Rhinopetalum* which is one of the easiest of this group...£4.00
Fritillaria crassifolia subsp crassifolia From limestone screes near Kahramanmaras, Turkey.
Fritillaria crassifolia subsp crassifolia A dwarf form from 3000m on Palandöken Range, Turkey.
Fritillaria epirotica The epitome of a dwarf dark purple-brown fritillary from serpentine screes in the Pindus range, N Greece.....£4.00

Fritillaria involucrata
Fritillaria (crassifolia subsp) kurdica ex Iran. Very dark flowers
Fritillaria (crassifolia subsp) kurdica From a yellow flowered parent and should have some yellow offspring.
Fritillaria (crassifolia subsp) kurdica A Turkish one with green and brown flowers
Fritillaria montana
Fritillaria oranensis This is the Rif (N Morocco) plant with narrow leaves. Much like *F lusitanica* but with a different nectary.
Fritillaria orientalis From north-facing rock ledges in the northern Caucasus.
Fritillaria poluninii A special little white flowered species tessellated green from limestone snowmelt areas on the Iran/ Iraq border. ..£4.00
Fritillaria reuteri£4.00
Galanthus reginae olgae subsp vernalis ex Trebinje, Croatia.
Gagea luteiodes From the Zagros range, Iran.
Gagea sp ex Col du Zad, Middle Atlas range, Morocco
Gagea tenuifolia
Hesperantha rosea
Hyacinthella heldreichii
Hyacinthoides reverchonii
Iris graeberiana Hand pollinated seed from wild origin parents and should not have crossed with anything else.
Iris scariosa
Iris stolonifera
Lachenalia maughanii
Lachenalia pygmaea
Muscari anatolicum This form is tiny and has pink sterile flowers and blue fertile ones.
Muscari chalusicum
Muscari discolor ex JCA17760
Muscari inconstictum Syrian stock
Muscari kerkis
Muscari massayanum Superb yellow fertile flowers with pink sterile ones at the top. Ex JJA Seeds stock from near the type locality.
Muscari mirum
Narcissus alpestris.....£4.00
Narcissus bulbocodium var filifolius
Narcissus cantabricus
Narcissus eugeniae
Narcissus jeanmonodii
Narcissus nobilis
Narcissus obsoletus White flowers in autumn.
Narcissus pannizianus
Narcissus poeticus var physaloides The usual flowers emerge from strange-looking swollen calyces
Narcissus tazetta From our plants which have established well outside here against a south wall.
Narcissus triandrus From vigorous large-flowered parents which originated in the Picos de Europa.
Nothoscordum felipponei (= ostenii)
Papaver macrostomum 'Black Magic' This is our own introduction (and name). It has the deepest black flowers that you can imagine and I suspect is going to become a classic for the garden. 30cm. Seed needs light to germinate.
Romulea obscura var subtestacea
Romulea syringodeoflora
Romulea tetragona
Scilla gorganica This may be the only chance you will get to grow this super Iranian species.....£4.00
Scilla olangensis The name for this newly described and clearly unique species from the eastern Elburz range.....£4.00
Tecophilila cyanocrocus var violacea
Tristagma bivalve
Tulipa aitchisonii ex CR126
Tulipa cretica ex pink flowered form
Tulipa cretica ex a white flowered form
Tulipa ferganica
Tulipa kolpakowskiana
Tulipa vvedenskyi
