

Kevock Garden Bulbs

Happy New Year!

We write at a time when the weather is hammering many areas of Britain, and we send our sympathy to those affected. At least we know it will ease and better times will come and we hope this is a good year for gardeners.

(Lilium candidum)

New bulb catalogue now online

Over the years interest in our bulb lists has grown and we now have a new bulb store on our website enabling you to order directly on line. You should see a prominent green 'Buy bulbs from our on-line store' button on the website home page; if you don't see it, refresh the page. Otherwise a direct link to it can be found here:

<http://bulbs.kevockgarden.co.uk/store/>

The bulb lists will change during the year. Our current one is for bulbs and some other dormant plants, for flowering from this summer onwards.

Orders have to be placed by the end of February, and the bulbs and plants will be sent out at the beginning of March or early in April.

(Jeffersonia diphylla)

(Cypripedium reginae)

Once again we have extended the range, and we are delighted that we can offer a good number of *Cypripedium* for the first time. We have wonderful *Helleborus thibetanus*, dramatic *Gladiolus flanaganii*, rare Paris - and it is worth continuing to the end of the alphabet, as *Ypsilandra tibetica* delighted us in our own garden last year.

We are happy to help advise on planting lists if you are not sure where to start. You can also order plants from the plant store. The two stores operate independently, so you can go to either one and start browsing.

You can also now follow us on Twitter @KevockGarden and Facebook (Kevock Garden Plants!)

Best wishes for 2014

Stella and David Rankin and the team at Kevock Garden
