# SHOWS 2012

## SHOW RULES

1. Exhibitors must be members of the Club, unless otherwise stated.
2. The term 'rock plant' shall mean any plant suitable for the rock garden, bog garden, wild garden or alpine house.
3. Section I is open to all members. Section II is open only to members who, at the start of the show year have not won more than 25 SRGC Section II First Prizes. Section III is for Junior members. Section IV is for non-competitive exhibits of plants, photographs, paintings, sketches, etc. Council is anxious to encourage these to make the shows as successful as possible. Please advise the Show Secretary of the size of the exhibit by the entry date.
4. All plants for competition should be clearly labelled and the names should be horizontally displayed. Inaccurate naming shall not be a disqualification.
5. Competitive exhibits must be the property of the exhibitor and must have been in his or her possession for at least six months before the date of the Show.
6. No competitor may have more than one exhibit in any one class, unless specified for that class in the schedule.
7. No exhibit shall be removed from the hall between the hours of judging and the close of the Show without the permission of the Show Secretary.
8. All exhibits must be removed at the end of the Show.
9. The scoring for all awards based on an aggregate of points will be as follows:

	First	Second	Third
6 Pan Classes	180pts	120pts	60pts
3 Pan Classes	90pts	60pts	30pts
2 Pan Classes	60pts	40pts	20pts
1 Pan Classes	30pts	20pts	10pts

10. The Show Secretary shall appoint Judges for the Show, and their decisions shall be taken as final. For Sections I and II at least two of the three Judges shall be selected from those names on the Club's Panel of Judges which is held by the Chairman of the Show Secretaries' Committee. At least one of these three Judges shall reside outside the immediate neighbourhood of the town where the Show is being held. For Sections other than I and II, Show Secretaries are at liberty to use their discretion. No Show Secretary shall appoint a Judge who has already served at the Show for the previous two consecutive years.
11. Any protest must be delivered in writing within half an hour of the Show opening on the first day of the Show to the Show Secretary, who will then appoint a Committee of not less than three persons who will consider the protest.
12. All cups and trophies (except medals) to be held for one year. Cost of engraving trophies may be reclaimed from relevant show secretaries.

13. All exhibitors, except those officially retained, shall leave the hall at the commencement of judging.
14. All plants entered in classes for plants 'grown from seed' or 'new, rare or difficult' must be accompanied by a brief description of their cultural requirements and date of sowing where appropriate.
15. Classes for bulbous plants include corms and tubers. Judges should exclude rhizomes and Orchidaceae, but may give liberal interpretation to plants coming under the other headings. They should look for established plants.
16. All plants should be free of pests and diseases. Any plants may be removed to a safe place by the Show Secretary if in his or her opinion a plant is harbouring pests or diseases.

111.	1 20cm (8") vase of Tulips, one variety, three blooms

**Definitions of Classes of Auricula, Polyanthus and Primrose**

**Show Auriculas** are either edge or self-coloured. They invariably have white paste centres.

**Alpine Auriculas** have pips of one colour, though of varying shades of that colour, the deeper shade towards the centre, the paler towards the edge. No farina is to be found on any part of an Alpine Auricula. The centres may be either gold or cream-coloured.

**Border or Garden Auriculas** are somewhat similar to Alpine Auriculas, but the colour shading is much less definite. They are coarser plants than Alpine varieties, and farina may be found on foliage or flower scapes.

Florists' Auriculas should not be confused with Primulas belonging to the Auricula Section. This latter includes P.auricula and its varieties, and such well-known hybrids as P. 'Linda Pope'; the term "Auricula" is commonly applied to the florists' varieties, and not to species and their hybrids.

The plant known as P. 'Barrowby Gem' is a Polyanthus, and the group covered by the name Juliae hybrids should be classed as Primroses; P. Garryarde Guinevere' is a Polyanthus.

Members who are in doubt as to which classes their exhibits belong should consult the Show Secretary.

# SRGC SUMMER MEETING

## Flowers of the Hills and Mountains

18<sup>th</sup> August 10.00am to 4.00pm

**Show Secretary** Sandy Leven, 2, Leighton Court, Dunblane FK15 0ED  
Tel 01786 824064 sandy.leven@btinternet.com

**Venue** Dunblane Christian Fellowship Hall, Station Road,  
Dunblane

**Location** Opposite the Railway Station

**Staging** 8.30am till 10.00 am on Saturday 18<sup>th</sup> August

## A Summer Event to Celebrate Rock Gardening

This new event celebrates the fact that the SRGC is a garden club and the plants which members grow. It will illustrate and the beauty, diversity and garden worthiness of the widest range of rock and woodland garden plants, bulbs, shrubs and trees, to encourage their cultivation in gardens and to encourage the exchange of plants and knowledge among gardeners. The display is not intended to be floral art.

### 'Flowers of the Hills and Mountains'

#### The event is in FOUR PARTS

#### Four short talks on 'My Garden'. [c 30 min]

- Barry & Cathy Caudwell 'Creating a garden by the Tay Estuary' in Abernethy, Perth
- Bette Ivey 'Transforming my Garden' in Cupar, Fife
- John Owen, Askival - Trials Tribulations and Joys in Fort Augustus, Inverness-shire
- Ian Bainbridge on creating a 'Crevice Garden' at Easter Howgate, near Edinburgh

In these short talks these enthusiasts describe the development of their beautiful gardens and some of the plants that they grow and propagate.

#### A display of rock garden plants, flowers, foliage and fruit featuring

- ☐ rock plants in pots
- ☐ bulbs
- ☐ cut stems of flowers,
- ☐ cut stems of shrubs,
- ☐ cut stems of trees

We want a much **wider range of exhibits** than the usual shows allow for, celebrating plants in flower, using cut stems, as well as plants in pots. We want members to show **plants suitable for most gardens**, as well as any special plants or plants for special situations.

#### Seedling and plant exchange

- ❖ Members can donate pots of seedlings of which they have enough transplants for their own needs to share with other members
- ❖ Pots to be labelled- variety, sowing date, source and number eg SRGC 2011 No. 1234

- ❖ Pots should contain a ‘reasonable number’ of seedlings
- ❖ Large germinations can be split into several pots as appropriate
- ❖ Pots of seedlings will be sold with 50% going to the donor.

This is sound ecological practice, will result in recipient gardeners enjoying a wider range of plants and more of the seeds distributed by the SRGC will be grown on.

## **Plant Sales**

- ❖ 50:50 PLANT SALE A members’ summer plant sale featuring many of the plants in the displays and any other plants. All plant sales on a ‘50:50 basis’.

## **Space will be available for Display Exhibits of photographs etc**

**Exhibits** should be named as accurately as possible using the cards provided. The cards should be available at earlier shows so members can complete them in advance.

The Display Card would give space for:- The plant name, the grower and the town where grown

It could also include

- **information** the grower wanted to provide any eg country of origin, introduced by?
- **special requirements if any** e.g. - shelter, frost tender, care needed in different seasons, sea side, soil conditions, position etc
- **date of sowing, date of cutting**
- where it might be purchased - nursery etc
- are there plants for sale on the sales table? - *[tick box]*
- photographs of the plants growing in the garden or wild can accompany exhibits.

Exhibitors must supply their own containers [vases, bottles, jars, Oasis], which must be watertight. Cut stems can be displayed in

- ☐ Vases or glasses and tumblers, bottles - *depending on the exhibit*
- ☐ Used tins of various sizes, with the label removed. *[with the cut edge rounded]*
- ☐ Oasis in dishes, tins or jars
- ☐ The cut stems can be in water, wet sand, gravel or Oasis foam or similar material.
- ☐ The container must be heavy enough to allow it to stand upright with the exhibit
