

Kurt Vickery Monocot seed list August 2012

Welcome to the 2012 main seed list

It's been a very mixed up year weather wise hasn't it?, Here in the UK a mini heatwave in March followed by a very wet summer with the occasional few days of high temperatures have left some of the bulbs utterly 'confused' Many of my Fritillaria thought they'd had enough and aborted seed production altogether On a high note I had a very successful collecting trip to Eastern Kazakhstan and the Altai in May and many of the items collected are available in this list All cultivated seeds are from hand pollinated and or isolated plants unless otherwise stated. w/c means wild collected, o.p. means open pollinated Items marked with an * are in short supply .Those with an additional red* Should be sown immediately as they have short viability under normal storage conditions .

Items marked ** are likely to sell out within hours of this list being e-mailed Numbers in brackets refer to the number of seeds per packet, some of these will be very few, so please pay careful attention to this before ordering I will update stock levels each Sunday, just e-mail if you want to know The latest info

Prices are £ Sterling

I CAN NOT accept non Sterling cheques. Cash is easier for me if paying in Euros or Dollars but overseas customers can pay by STERLING international money order if they prefer.

Please make out cheques to K.P.Vickery

If sending a cheque you may prefer to endorse it , Not to exceed 'X' number of pounds, 'X' being the anticipated maximum cost of the order, If you do this please leave enough space for me to fill in the actual amount

Address
