

# Crocus biflorus alexandrii

Flowering Time	Spring
Distribution	Serbia; Bulgaria
Native Climate	Cold snowy winter, warm summer
Wild Habitat	Mountain scrub, open places
Distinctive Features	White flowers, outer petals almost entirely dark violet blue. No yellow in throat
Closest Relatives	<a href="#">Crocus biflorus weldenii</a>
Cultivation Requirements	Well drained soil, sunny position. (UK gardens)
Availability	Widely available in commerce/specialist suppliers

Very similar to (possibly =) Crocus 'Eyecatcher' of commerce.
